It is pleasing to the Commission to note the growing sentiment on the part of lot-holders and citizens for better care of our cemeteries.

Nine hundred and fifty (950.00) dollars has been donated for special and perpetual care of lots, and the Commission would again call the attention of lot-holders to the wisdom of making provisions for special and perpetual care of their lots, and thus secure present, as well as future care.

The Commission would recommend for the care and improvements of the several cemeteries in town the coming year an appropriation of one hundred dollars.

Respectfully submitted.

C. R. LORING, Chairman of Commission.

E. D. LORING,
Sec. North Yarmouth School Fund.

School Report.

of the School Committee and Superintendent of Schools.

NORTH YARMOUTH.

I have the honor of presenting this report covering a period of seven months of my Superintendency and five months of my predecessor.

TEACHERS—

The teacher makes the school. The scholars are always with us. The School Committee rarely changes from its fixed policies. The Superintendent can outline his courses of study, suggest plans and methods, instruct to a limited extent, and be helpful in times of trouble. But in the schoolroom the teacher must ever be supreme. She must be the guiding spirit of the work and of the play. In the rural school, she must possess tact and judgment in dealing with the problems of discipline, in the room and in the school yard, in attention to the cleanliness of school buildings, care for the sanitary conditions and keep a general oversight of everything connected with the school. To secure teachers possessing these qualifications at the salaries we can pay is difficult. That it is possible is evidenced by the fact that we have had, with one exception, during the past year, a good teaching force. That we have failed to retain these teachers, is a matter of regret to both Superintendent and School Committee and a distinct loss to the pupils and the community. It would seem advisable to place all teachers on a salary schedule, starting with a small minimum salary and leading to a stipend sufficiently large to retain all teachers giving satisfactory service. I submit for your consideration the following graded salary schedule,

similar in plan to those to be placed before the citizens of the other towns of the union.

GRADED SALARY SCHEDULE FOR THE TEACHERS OF NORTH YARMOUTH.

First year, ...	\$8 50	per week.
Second year, ...	9 50	“ “
Third year, ...	10 50	“ “
Fourth year, ...	11 50	“ “
Fifth year, ...	12 50	“ “
and \$13 00 per week thereafter		

Each year at Normal School and each two years of satisfactory teaching experience elsewhere may count for a year's service in the town upon the recommendation of the Superintendent, and the approval of the Committee.

TEXT-BOOKS AND SUPPLIES.

Our text-books are in good condition and the only changes which need to be made will be in the text-book of the geography to be used, and new language texts.

In view of the demands for better industrial training, it would be well to add some manual work and an appropriation of \$30 00 in addition to the usual amount for supplies might well be made for this purpose.

AGRICULTURE.

Every rural community should demand that its schools foster the spirit of the dignity and greatness of agricultural labor. It is the community, of which our town is one, which supplies to the world its life. Our boys and girls ought to be taught to sense the great responsibility that devolves upon them, and the school with its school gardens, and home gardens, connected with the work of the school might be made a valuable asset to the community.

In this connection, it will be apparant to all, that, the only way in which this highly desirable end may be reached, is in retaining our teachers sufficiently long, that they may become acquainted with what can and what ought to be done, and gain time through a knowledge of the work of the school, to do the work in the agricultural line.
